

SOLAR LIGHT FLAG STAND

Unpack the box and unwrap the items. Confirm all the items are there.

1 Allen Key (2.5mm) + 1 Flag Keeper with Set Screw (2.5mm) + 1 LED Light

INSTRUCTIONS:

1. Unpack all of the pieces.
2. Grab the top of the LED light and turn it counter clockwise to unlock the top and remove the top.
3. Remove the ORANGE pull tab from the rechargeable batteries to complete the connection.
4. Use the Allen Key to loosen the set screw on the bottom of the Flag Keeper and slide the Keeper off.
5. Install your garden flag onto the arm of the stand and place the Flag Keeper on the end.
6. Tighten the set screw with the provided Allen key. Do not over tighten.
7. Replace the top of the LED light on the base and then insert the LED light on the top of the stand.

TIPS:

Keep the Allen Wrench inside the base of the solar light for safe keeping.

Remove the Solar Light from the stand before inserting the stand into the ground, then replace it. Place the stand in a sunny spot which avoids porch and street lighting at night.

*** Due to the placement of the sun in the winter months, (The Azimuth) the solar lights "on time" will be less then the solar Lights"on time" in the summer months***
